

This is your newsletter. So name it!

£30 prize for the best name.

Tell us what you think Online Youth News should be called by August 31st.

We Want Your Views

We want to hear your views as young people on where you live so we can listen to you and use your ideas to improve our services for you. With your help we've already:

- Run themed Youth Panel meetings.
- Produced four award-winning films.
- Helped young people successfully apply for funding for computers and a football cage.

Online Youth News is our latest way for you as young people to tell us your views on the things that matter to you. Help us make it better – choose a new name and help us with a new design. Get in touch with Marlon with any ideas. His contact details are at the bottom of the newsletter.

Your voice counts

Tenant Services Authority (TSA):

The TSA is a new body who focus on raising the standard of services to people living in council homes. They want everyone to take part in The National Conversation and tell us what affects you in the area you live in.

Below is the new standard they have suggested for dealing with antisocial behaviour and security. Have a look and tell us what you think is right and wrong about the standard, or what's missing.

What the new standard says:

"Landlords should agree with you what they can and cannot provide, which means you can change things if they are not working

You as a tenant should feel supported and confident that your landlord is sorting out things that continue as ongoing problems affecting you where you live – like neighbour nuisance or security.

Maybe you're a part of someone else's problems, rather than a victim – so you should be able to get support from your landlord to help you resolve community concerns."

Do you want us to run a session to hear your views?

Or you can tell us what you think from where you are...simply call, text, email or post by 17 August 2009. We'll update you in the next edition.
